★ GEOMETRIC STARS ★

With "the order and vitality of geometric aesthetics" as the core, this design organically integrates classic geometric elements. The sense of order is reflected in the precise combination of geometric elements and the orderly matching of colors; while the sense of warmth is embodied in the soft rounded-corner design, warm neutral-color base, and the texture of handcrafted patchwork—avoiding the coldness of pure geometric styles.

Flowers Perched with Sparrows

Inheriting the Morris style's devout praise for nature, "Flowers Perched with Sparrows" takes blue as its main hue, which, like soft morning dew, establishes an elegant tone. Khaki and pink serve as complementary colors, adding a touch of softness and simplicity to the series of floral patterns.

With smooth curves, the flowers and leaves spread freely, following the symmetrical and intertwined aesthetics of the Morris style, weaving into natural patterns with a well-proportioned density.

❀ SUMMER CRUSHED ICE ❀

Taking the classic aesthetics of British Liberty floral patterns as the core, this design integrates the dual characteristics of "natural rustic charm and exquisite romance". Through the interplay of different colors, it recreates the vivid scene of blooming flowers in an English countryside. Meanwhile, it also caters to the demands of modern aesthetics, ensuring the design remains relevant and appealing to contemporary tastes.

Spring Flower Cluster

The "Spring Flower Cluster" series of floral patterns uses pink as the main color, supplemented by blue and beige. Pink is like soft clouds, beige resembles the hazy light of the newly awakened day, and blue is as clear as the sky. Green and blue leaves, along with tiny pink flowers, are dotted among them—just as if a spring breeze has blown by, condensing the brilliant spring scenery into the flower clusters and creating a bustling yet warm atmosphere of spring floral events.
